

# **End-to-End DevSecOps Platform**

Institut Supérieur des Études Technologiques de Mahdia

Academic Year 2025–2026

# Contents

<b>1</b>	<b>Architecture Design</b>	<b>3</b>
1.1	Global Architecture Diagram . . . . .	4
<b>2</b>	<b>Infrastructure and Deployment</b>	<b>5</b>
2.1	Network Architecture Diagram . . . . .	5
<b>3</b>	<b>DevSecOps Pipeline</b>	<b>6</b>
3.1	Tool Interaction Diagram . . . . .	6
<b>4</b>	<b>Conclusion</b>	<b>7</b>

# List of Figures

1.1	Global Architecture of the End-to-End DevSecOps Platform . . . . .	4
2.1	Network Architecture of the DevSecOps Infrastructure . . . . .	5
3.1	Tool Interaction Diagram in the DevSecOps Pipeline . . . . .	6

# Chapter 1

## Architecture Design

### 1.1 Global Architecture Diagram

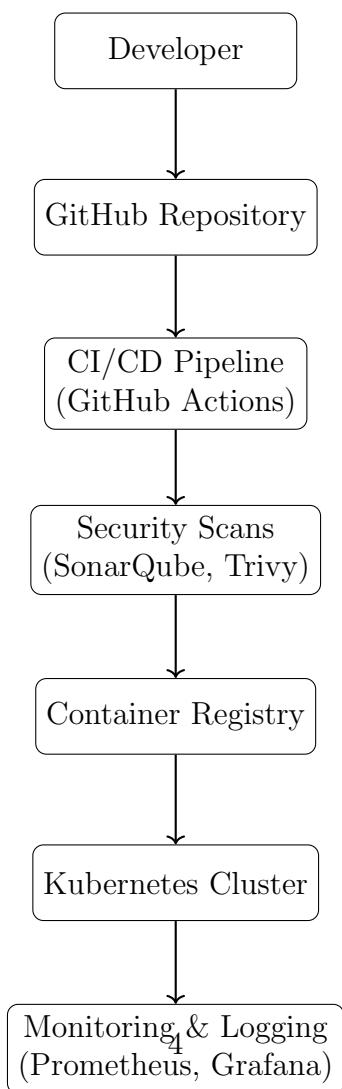

Figure 1.1: Global Architecture of the End-to-End DevSecOps Platform

# Chapter 2

## Infrastructure and Deployment

### 2.1 Network Architecture Diagram

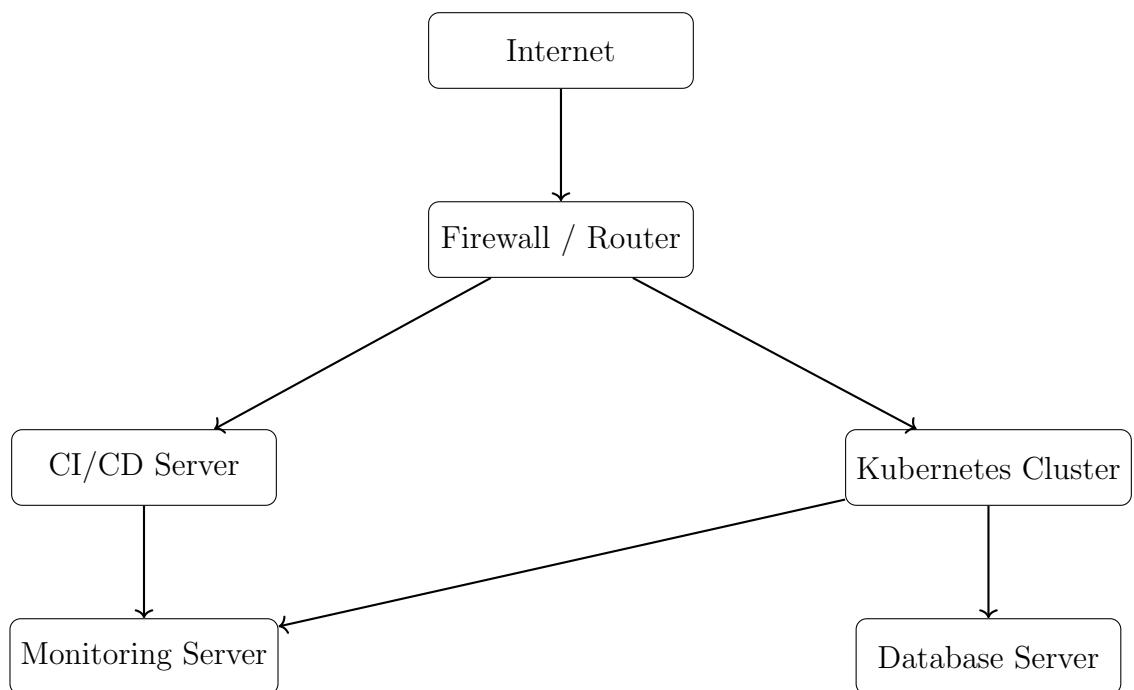

Figure 2.1: Network Architecture of the DevSecOps Infrastructure

# Chapter 3

## DevSecOps Pipeline

### 3.1 Tool Interaction Diagram

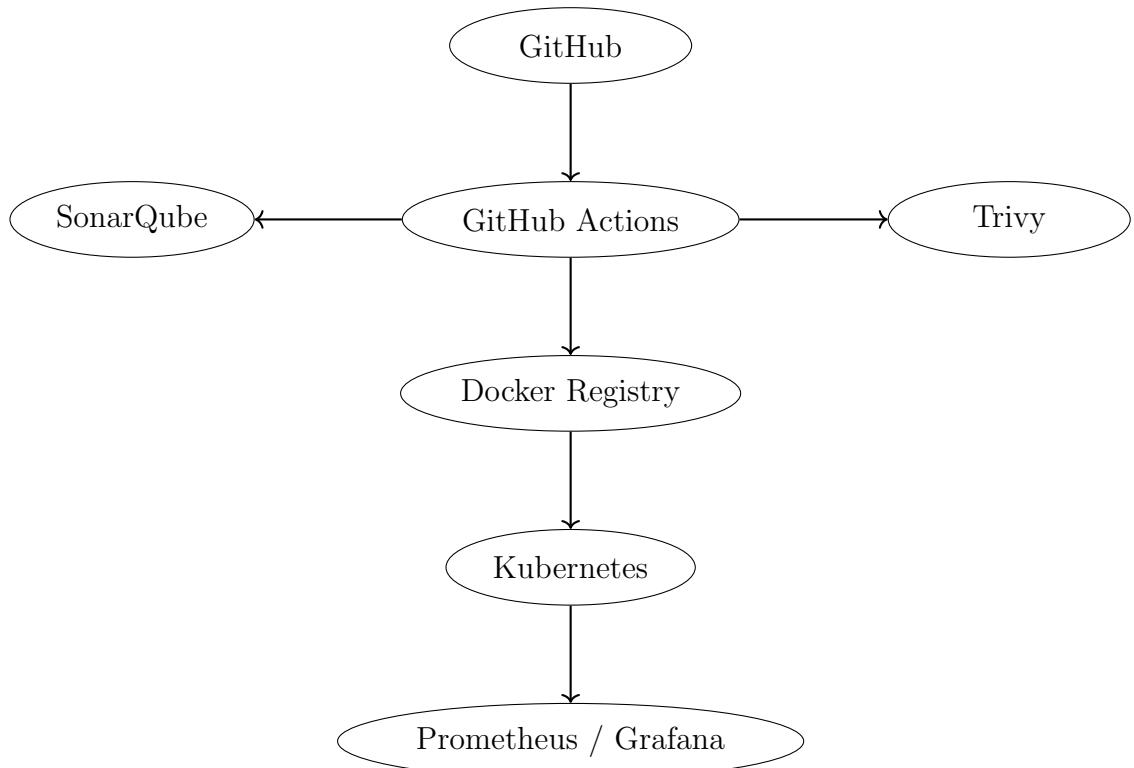

Figure 3.1: Tool Interaction Diagram in the DevSecOps Pipeline

# **Chapter 4**

## **Conclusion**

This project demonstrates a complete end-to-end DevSecOps platform integrating automation, security, containerization, orchestration, and monitoring.
